<tbody>
<tr>
<td>Bonds</td>
<td>U.S. Treasury Securities</td>
<td></td>
</tr>
</tbody>
</table>

1. You may purchase these at a financial institution for as little as $25.00. Interest is added monthly and typically paid to you at the end of the term. __________________________

2. You purchase these when you buy a share of a corporation. You may periodically receive dividends or a portion of the company’s profits. __________________________

3. These types of accounts are tax exempt and generally designed to help ensure adequate income for retirees. __________________________

4. These products are offered and managed by companies that combine money from many investors to purchase numerous separate investments. __________________________

5. These investment products are backed by the U.S. Government and the minimum purchase price is $100.00. __________________________
